## **Qponics investor presentations in Brisbane, Sydney and Melbourne during February 2014**

Qponics Limited will host investor presentations in Brisbane, Sydney and Melbourne during February 2014. The directors will describe the investment opportunity in an emerging agribusiness company ***focused on the sustainable production of algal omega-3 oil - using a novel organic aquaculture-algaculture process.*** Refreshments will be available. Venue and time details are as follows:

### **BRISBANE**

Tuesday 25 February

Venue: McCullough Robertson Lawyers, Level 11, Central Plaza Two, 66 Eagle Street, Brisbane QLD 4000.

Time: 5:30 pm

### **SYDNEY**

Wednesday 26 February

Venue: McCullough Robertson Lawyers, Level 16, 55 Hunter Street, Sydney NSW 2000.

Time: 5:30 pm

### **MELBOURNE**

Thursday 27 February

Venue: Mendleson Communication, 19 Amsterdam Street, Richmond VIC 3121.

Time: 5:30 pm

The Company lodged its first Offer Information Statement with ASIC on 28 November and released it in December. It is available for download [here](#).

Qponics Limited is preparing a unique aquaculture-algaculture system for the production of algae and extraction of their EPA and DHA<sup>1</sup> OmegR<sub>3</sub><sup>®2</sup> oils. This oil currently wholesales for about US\$93 per kg in the Asia/Pacific region. Once the pilot plant is operational, production of up to 200,000 kg of algal omega-3 oil per year is anticipated from the first unit, with substantial future growth potential through further scaling-up of production and building additional facilities around Australia.

Subject to available capital, Qponics is confident that a pilot algae production plant can begin construction during 2014.

<sup>1</sup> EPA: eicosapentaenoic acid; DHA: docosahexaenoic acid – these are essential fatty acids

<sup>2</sup> OmegR<sub>3</sub><sup>®</sup> is a Qponics Limited registered trademark.

### **Dr Graeme Barnett**

Chief Executive Officer and Managing Director
